some people may mistakenly overlook this book because of the novelty of its central idea upending a panoramic camera to shoot new york city vertically but veteran photographer horst hamann s pictures have nothing gimmicky about them in fact like berenice abbott s they seem destined for new york city photo immortality the pictures are beautifully controlled in vision in camera technique and in printing what s more hamann bends the city to his vision of light air and geometry a shot of the statue of liberty s right arm holding the lamp aloft is a masterwork of composition and care it s as if hamann somehow arranged for the sea below to darken in precisely the same gradations as the lady s stately arm compare it to a dizzying picture of one of the chrysler building s shiny eagle heads or a serene moment among the hosta lilies in trinity church cemetery for a grasp of hamann s range each photograph is paired with a quotation on the opposite page such as walt whitman s the beautiful city the city of hurried and sparkling waters or former mayor james j walker s quip i d rather be a lamppost in new york than mayor of chicago the back of the book contains information on the places in the photographs on a shelf of new york books this one might take its place next to paul goldberger s classic the city observed as a fresh example of how new york s stone steel and glass architectural icons are reinvented with each new visionary
